

# Epsilon Camp

## Job Description: Camp Counselor

Epsilon Camp, a two-week residential summer program for highly gifted 7-12 year olds passionate about math, is seeking undergraduate or graduate students of mathematics to fill positions of Camp Counselor. The ideal candidate is someone who is both knowledgeable and enthusiastic about mathematics, who loves working with children, and who can be depended upon to keep a group of campers safe, supervised, and engaged.

Compensation for this position will be a base salary of \$2000, room and board, and travel expenses to and from camp. Epsilon Camp 2023 will run from Sunday, July 9 to Sunday, July 23 on the campus of Miami University in Oxford, Ohio. Counselors must be on site from Thursday, July 6 to Monday, July 24.

### Responsibilities:

- Supervise an assigned group of campers throughout the day
- Provide classroom support for the faculty during class and office hours
- Organize and lead groups of campers in mathematical play and other activities
- Recognize and respond to needs of campers, proactively address concerns
- Provide feedback on students' behavior and performance to faculty and staff
- Be a positive role model

### Qualifications:

- Undergraduate or graduate student studying mathematics
- Excitement for mathematics, and talent for working with bright young students
- Excellent character, integrity, dependability, adaptability, time/stress management
- Positive energy level for early morning that is maintained throughout the long day
- Ability to communicate, work well with others, and problem solve
- Eligibility to work in the US (citizen or resident alien)

Please send the following to [jobs@epsiloncamp.org](mailto:jobs@epsiloncamp.org):

- Cover letter, explaining how you heard about Epsilon Camp and detailing your interest in the position
- CV listing education and experience; include a list of college-level math courses, completed or underway, as well as any experience working with children
- Names, positions/institutions, and email addresses of three references; at least one reference should be someone who knows you mathematically (a university math professor is strongly preferred), and at least one should be someone who knows you outside of mathematics (for example, someone who supervised you while you were working with children)

Please note that Miami University campuses are designated Smoke Free Environments. Smoking and all tobacco related products are prohibited in all University owned facilities and on all University owned grounds.

Proof of COVID-19 vaccination will be required for all camp attendees, including faculty and staff. All participants are required to be up to date on their COVID-19 vaccinations, including any boosters recommended by the CDC at the time of camp.

Please email Natalya Hung, Camp Director, at [natalya@epsiloncamp.org](mailto:natalya@epsiloncamp.org) with any questions.

**Application deadline: February 15, 2023** for first round of selection. We expect to start making offers around **March 1** and continue making offers on a rolling basis until all positions are filled.
